Reasons for Allowance

Upon reconsideration, the following is an examiner's statement of reasons for allowance. The instant invention relates to a process of making dialkyl carbonate and a diol. As argued by Applicants', none of the prior art teach or suggest two reaction zones. Further, neither of the primary references teach the use of bicarbonate in the process. Therefore, the instant claimed invention is considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
